School of Liberal Education
Bachelor of Arts Honours in Applied Psychology
Mid Term Examination - May 2024

Duration : 90 Minutes
Max Marks : 50

Sem II - K1UA203B - Physiological Psychology

General Instructions

Answer to the specific question asked

Draw neat, labelled diagrams wherever necessary

Approved data hand books are allowed subject to verification by the Invigilator

- 1) Compare the degeneration techniques with lesion techniques in physiological psychology. K2 (2)
- 2) Discuss about the degeneration techniques. K1 (3)
- 3) Explain about the need of pharmacological manipulation in Physiological Psychology. K2 (4)
- 4) Explain any three research methods of physiological psychology. K2 (6)
- 5) Select the situation when you want to apply polygraph method and why polygraph method is different to scanning methods. K3 (6)
- 6) Evaluate the differences between sensory neurons, motor neurons, and interneurons in terms of their functions in neural conduction. K3 (9)
- 7) Compare the degeneration techniques and lesion techniques. K4 (8)
- 8) Analyze the basic features of the nervous system, encompassing the central nervous system (CNS), autonomic nervous system (ANS), and peripheral nervous system (PNS). K4 (12)

OR

Analyze the structure of a neuron, with a focus on the intricate details of its components and how they work together. Discuss how this structure supports the neuron's function in transmitting signals. K4 (12)
