**School of Liberal Education**

**Bachelor of Arts Honours in Applied Psychology  
Mid Term Examination - May 2024**

**Duration : 90 Minutes**

**Max Marks : 50**

**Sem IV - K1UA404T - Cognitive Psychology***General Instructions*

*Answer to the specific question asked*

*Draw neat, labelled diagrams wherever necessary*

*Approved data hand books are allowed subject to verification by the Invigilator*

- 1) Explain the meaning of cognition in psychology. K2 (2)
- 2) Choose one advantage of the connectionist approach over the information processing approach and explain why it is significant. K1 (3)
- 3) Explain the difference between bottom-up and top-down approaches to perception. K2 (4)
- 4) Compare and contrast the attenuation model of attention with the filter theory in terms of their explanations of attentional processes. K2 (6)
- 5) Select one factor influencing attention and discuss its impact on cognitive processes. K3 (6)
- 6) Identified and explain the key principles of the connectionist approach to cognition. K3 (9)
- 7) Analyze how perceptual constancies, including size, shape, and brightness constancy, contribute to our ability to perceive stable and coherent representations of the world despite changes in sensory input. K4 (8)
- 8) Examine the role of perceptual illusions in understanding the limitations of our perceptual processes, providing examples and discussing their implications. K4 (12)

**OR**

- Examine the depth perception and its importance in our ability to perceive the three-dimensional structure of objects and environments. K4 (12)
