GROUP C (2 x 10 = 20 Marks)		
10	<p>“The promotion of responsible research practices is one of the primary responses to concerns about research integrity. Other responses include the development of policies and procedures to respond to allegations of misconduct and education in the responsible conduct of research.” In this regard, exploring best practices in research helps to clarify that promoting these practices is not only a moral imperative but is also essential to good science. In this background, while emphasizing on the needs of best practices, list and discuss the best practices from the perspective of research and research institutions.</p> <p style="text-align: center;">(or)</p> <p>What are indexing databases and why it is important for a researcher to know about them? Discuss the categories in which indexing databases can be segregated.</p>	10
11	<p>What do you understand about the philosophy of research? How does philosophy shape modern existence and progression of research in any discipline?</p> <p style="text-align: center;">(or)</p> <p>Discuss the various methods you would adopt to maximize the acceptance of your research paper in high indexed journals. Why are the articles published in journals indexed in highly acclaimed databases only? Answer through cogent reasons and examples.</p>	10
