

Name of Scholar (in CAPITAL):		Printed
Admission No.:		Pages:01
Core Coursework End Term Examination (Regular Back), May-June 2024 (For Winter 2023-2024) [Programme: PhD]		
Course Title: Research Methodology		Max Marks: 100
Course Code: C1RD101T		Time: 3 hrs
Instructions:	1. Answer as per the instructions in each section. 2. Assume missing data suitably (if any).	
Section A: All questions are compulsory. (5 x 5 = 25 Marks)		
		Marks
1.	Distinguish between research methods and research methodology.	5
2.	Describe why the similarity index should be reduced before publishing a research article.	5
3.	Write down the steps involved in conducting experimental studies.	5
4.	Describe the applied research with example.	5
5.	Differentiate between primary and secondary methods of data collection.	5
Section B: Answer any five questions. (15 x 5 = 75 Marks)		
6.	Write down the characteristics of quantitative research method and explain in detail.	15
7.	Describe the probability and non-probability sampling methods in details.	15
8.	Write pointwise the principles of a good research report and briefly explain each of them.	15
9.	Describe about writing research reports and give a presentation.	15
10.	What is evaluation research? Write down the methods and benefits of evaluation research.	15
11.	What is empirical research? Describe the various steps for conducting empirical research.	15
