Semester End Examination - Aug 2024

Duration : 180 Minutes
Max Marks : 100

Sem III - K1UE321T - Universal Human Values And Ethics

General Instructions

Answer to the specific question asked

Draw neat, labelled diagrams wherever necessary

Approved data hand books are allowed subject to verification by the Invigilator

- | | | |
|----|---|--------|
| 1) | Define "recyclability" in the context of nature. Provide an example of a natural process where recyclability is observed and explain its significance in maintaining environmental sustainability. | K1(2) |
| 2) | Explore the role of "living in harmony" within the context of relationships and communities. How can harmonious interactions and cooperation at these levels contribute to the overall well-being and prosperity of individuals and society as a whole? | K2(4) |
| 3) | Explore the implications of understanding and addressing the needs of the 'I' and the Body in various aspects of life, including personal relationships, work, and lifestyle choices. How can this understanding lead to a more fulfilling and balanced life? | K2(6) |
| 4) | Analyze the scope and key characteristics of people-friendly and eco-friendly production systems in the context of professional ethics. How do these systems align with ethical principles and contribute to societal well-being and environmental sustainability? Provide real-world examples to illustrate your analysis. | K3(9) |
| 5) | Analyze the concept of values in human-human relationships, with a focus on the meaning of "Nyaya." Explain the significance of Nyaya in fostering harmonious relationships and ensuring Ubhay-tripti (dual satisfaction). Provide real-world examples to illustrate the application of Nyaya in daily life. | K3(9) |
| 6) | Examine the concept of "Harmony in the family" as the fundamental unit of human interaction. Analyze the critical elements and practices that contribute to harmonious family relationships, and discuss how such harmony impacts individual and collective well-being. | K5(10) |
| 7) | Explain the concepts of 'Natural Acceptance' and 'Experiential Validation' as mechanisms for self-exploration. Provide detailed insights into how these concepts support individuals in understanding and accepting their inner selves and experiences. Use case studies or personal anecdotes to exemplify these mechanisms. | K4(12) |
| 8) | Synthesize a comprehensive strategy for individuals to transition | K5(15) |

towards the Universal Human Order as socially and ecologically responsible engineers, technologists, and managers. Consider key principles, behaviors, and actions they should adopt. Discuss the role of education and personal development in this process. Elaborate on the potential challenges and opportunities in implementing this strategy.

- 9) Develop a holistic strategy for transitioning society towards the Universal Human Order by creating mutually enriching institutions and organizations. Include elements like governance, economic systems, and cultural shifts. Discuss how these institutions can promote values such as equity, sustainability, and social well-being. Analyze potential barriers to implementation and propose solutions for overcoming them. K5(15)
- 10) Elaborate the root cause of global warming, deforestation, soil degradation & what is the way out in your opinion? K6(18)
