

School of Computing Science and Engineering**Bachelor of Technology in Computer Science and Engineering
Semester End Examination - Jul 2024****Duration : 180 Minutes
Max Marks : 100****Sem VI - E2UC509T - General Principles of IPR**General Instructions*Answer to the specific question asked**Draw neat, labelled diagrams wherever necessary**Approved data hand books are allowed subject to verification by the Invigilator*

- 1) Describe the term "Copyright" and provide one example of the copyright. K1(2)
- 2) Illustrate the mechanism to protect the domain name in Indian jurisdiction with the help of case laws. K2(4)
- 3) Explain the John Locke's theory of the protection of intellectual property. Assess the validity of this theory while keeping in mind the Indian jurisdiction. K2(6)
- 4) Identify and explain the fundamental principles of first convention which emphasizes upon the copyright protection. K3(9)
- 5) Identify the relevant provisions of TRIPs, 1995 which has been applied by the Indian Parliament in Indian legislations. Explain those provisions along with the relevant provisions of Indian IP law. K3(9)
- 6) Human rights advocates for the protection of social, cultural rights of public at large whereas the IPR protects the rights of the individual. At few circumstances, both these laws get into contradiction with each other due to their basic nature. In light of this statement, discuss and elaborate the circumstances where both the laws are causing conflict with the help of the National and International legal instruments. K5(10)
- 7) Copyright law has provided several rights in the form of exclusive economic rights and few special rights. Explain and analyze the available exclusive economic rights and special rights to its holders with the help of the provisions of copyright Act, 1957 and judicial decisions. K4(12)
- 8) Evaluate the importance and advantages of geographical indication with respect to the protection of quality, reputation and other characteristics of product which arises due to geographical origin. K5(15)
- 9) A person has created a new micro-organism which can be used in order to preserve the original taste of the food stuffs by protecting it from the insects etc. He wants to have an Intellectual Property upon that micro-organism. He has approached to you. You are working as an Associate of IPR in Mumbai. What suggestions will you K5(15)

provide to him? How that suggested protection can be operationalized by the inventor?

10)

There is one country namely Jambu-Dweep. In Jambu-Dweep, there is no such law for the protection of Intellectual Property and no regime for the intangible rights such as Intellectual Property Rights. You are the Member of Parliament (MP) of Jambu-Dweep and you want to propose a bill for the protection of Intellectual Property and set up a strong legal protection for the persons who are involved in creating intellectual property. In context to stated facts, answers the following question: What will be the supporting jurisprudence in your proposed bill behind the establishment of strong Intellectual Property regime in Jambu-Dweep? Explain the proposed jurisprudence.

K6(18)
