World entering era of biology & computational science

TIMES NEWS NETWORK

Kiran Mazumdar-Shaw, executive chairperson of Biocon, said that while the first two decades of this century belonged to information technology the world is now entering an era of biology and computational science. "Through research-led innovation, I believe we can power economic development by transforming healthcare, agriculture, livestock management, industrial processing, and environmental sustainability," she said at Bennett University's annual convocation, where she was conferred an honorary doctor of philosophy degree in biotechnology. Conferring the degree on

Mazumdar-Shaw, Bennett University vice-chancellor, Dr Prabhu Aggarwal, said the name Kiran Mazumdar-Shaw and biotechnology are synonymous in India. Mazumdar-Shaw, he noted "has leveraged advanced science, innovative tech platforms and international research collaborations to develop therapies that can lower treatment costs, increase access and improve healthcare outcomes for diseases like diabetes and cancer".

Suresh Narayanan, chairman & MD at Nestle India, was also conferred an honorary doctor of philosophy in management. Aggarwal said Narayanan's rise up the ranks in the corporate world "reflects his

KIRAN MAZUMDAR-SHAW

My entrepreneurial journey has taught me the importance of business purpose, building credibility, and about taking untrodden paths

SURESH NARAYANAN

Remember that in adversity you will learn the most. In good times, everybody can be great. In terrible times, the diamonds in the dust shine

extensively rich and incredibly wide-ranging experience of over 35 years in the FMCG industry, spanning multiple countries and cultures".

Narayanan dedicated the degree to his parents, wife and daughter. "I happened to join this call from my parents' home in Chennai and while both of them are not around to see me receive this honour, I know for them there was a very high value for education. My father with his middle-class income afforded the best education that he could at that point in time to make me worthy of being a good citizen of India," he said.

Nasscom president Debjani Ghosh, who was a special guest at the convocation, told

graduating students to get comfortable with the uncomfortable. "Uncertainty, volatility, ambiguity - this is the only certainty that you will have. The skills that you need will constantly change. Your ability to deal with ambiguity and uncertainty is going to become your biggest competitive advantage and therefore one of the skills I have learnt is to step out of my comfort zone and become comfortable with the uncomfortable," she said.

Ghosh added that India's tech industry has become more agile for not just resilience, but resilience with empathy. That, she said, has been key to the kind of success the industry is seeing even in the Covid crisis

NEP will allow students to build careers based on interest, talent, says Pradhan

At BU's 3rd Annual Convocation, Edu Minister Lauds Varsity For Implementing NEP Vision

TIMES NEWS NETWORK

Greater Noida: The Modi government's initiatives under the National Education Policy (NEP) 2020 will empower students to chart academic paths that revolve around their interests and talents, Union minister Dharmendra Pradhan,

minars, Pradhan said, "I'm happy to note that Bennett University is embracing the multidisciplinary nature of learning as envisioned in NEP 2020. I laud the committee formed by the university to implement the policy in letter and spirit."

Pradhan, the chief guest at the convocation, which was

re students felt more empowered. The minister congratulated the new graduates, observing that the university was funding 55 out of its 96 registered PhD students, who were being mentored by faculty with a strong record of publications in reputable national and international journals. "The faculty and students have filed 18 patents. With strong commitment and dedication like yours, these numbers are bound to soar in future," Pradhan said.

In his address inaugurating the convocation, Bennett, Coleman & Co Ltd managing director and Bennett University chancellor Vineet Jain said India's future as a superpower depends heavily on education and employability. "The honorable Prime Minister's decision to entrust Shri Pradhan with the two portfolios he now holds is a recognition

Union education minister Dharmendra Pradhan was the chief guest at Bennett University's annual convocation, which was held virtually

of the close inter-linkages between the two," said Jain. "Our mission at Bennett University has been to create a class of young men and women who are future-ready. We have every hope that the honorable minister will encourage and incentivise private educational institutions - which have made serious investments in faculty, infrastructure and students - to be a partner in nation-building," Jain added.

The university's ability, said the chancellor, to seamlessly move to a technology-enabled teaching and learning platform and ensure student success in internships, placements and higher studies - even amid lockdowns and other restrictions necessitated by the pandemic - is a testament to its capability to stand alongside the best and contribute to youth empowerment. "Private institutions in In-

dia will continue to play a vital role and I am proud to say that Bennett University will strive to lead from the front. Bennett University will leverage technology and its various resources to reach a larger section of society with the aim of inclusiveness and access to high-quality education and support the core values espoused in NEP 2020," added Jain.

Five recipients of the chancellor's medal were felicitated. BBA student Hardik Aggarwal won the gold medal and Sejal Bhatnagar (BBA), Siddhant Iyer (BTech), Aditya Mishra (BA, J&MC) and Tunap Paul (BTech) won silver medals. Nine toppers in the batch of 2021 were awarded the vice-chancellor's gold medals.

Across its four distinct schools - Engineering and Applied Sciences, Law, Times School of Media and Management and Liberal Arts - Bennett University has over 20 degree programmes, 150-plus faculty members and 3,000 students. Four hundred students are graduating this year.

who holds the education and skill development and entrepreneurship portfolios, said at Bennett University's third annual convocation on Sunday.

Lauding Bennett University for sensitising the higher education fraternity about NEP through webinars and se-

held virtually, emphasised that the Centre's NEP initiatives like academic credit banks, allowing multiple entry-exits and the National Education Technology Forum, along with the Prime Minister's interventions, would help create an ecosystem where
