

TOPIC NAME – LECTURE METHOD

GALGOTIAS
UNIVERSITY

INTRODUCTION

- In lecture method only the teacher talks and students are passive listeners . Since the student do not actively participate in this method of teaching , this is a teacher - controlled and information centered method.
- Lecture method is most commonly followed in colleges and in school in big classes. This method is not quite suitable to realize the real aim of teaching science..

PLANNING THE LECTURE

Before starting to prepare a lecture, the teacher must be able to answer for basic questions..

- Who is your audience?- Who
- What is the purpose of your lecture?- Why
- How much time is available – How long
- What is the subject matter ? –What

GALGOTIAS
UNIVERSITY

PURPOSE OF LECTURE

UNIVERSITY

ADVANTAGES OF LECTURE METHOD

- It is quite economical method because it is possible to handle a large no of students at a time and no laboratory, equipments, aids materials are required..
- Using this method the knowledge can be imparted to student quickly and prescribed syllabus can be covered in short time..

GALGOTIAS
UNIVERSITY

DISADVANTAGES OF LECTURE METHOD

- In this method the students participation is negligible and student become passive recipients of information..
- In this method knowledge is imparted so rapidly that weak students developed a hatred for learning..

GALGOTIAS
UNIVERSITY

CONCLUSION

- This method of teaching can be made more beneficial if the teacher encourages his student to take notes during the lesson..
- After the lesson , teacher can give his students some time for asking questions and answer their queries without any hesitation..
