Introduction of NHP (1983 and 2002)

Purpose of NHP 2017

Goals, working principles and objectives of NHP2017

Targets of NHP 2017

Comparison between NHP 2002 and NHP 2017

NHP 2017 policy ideas

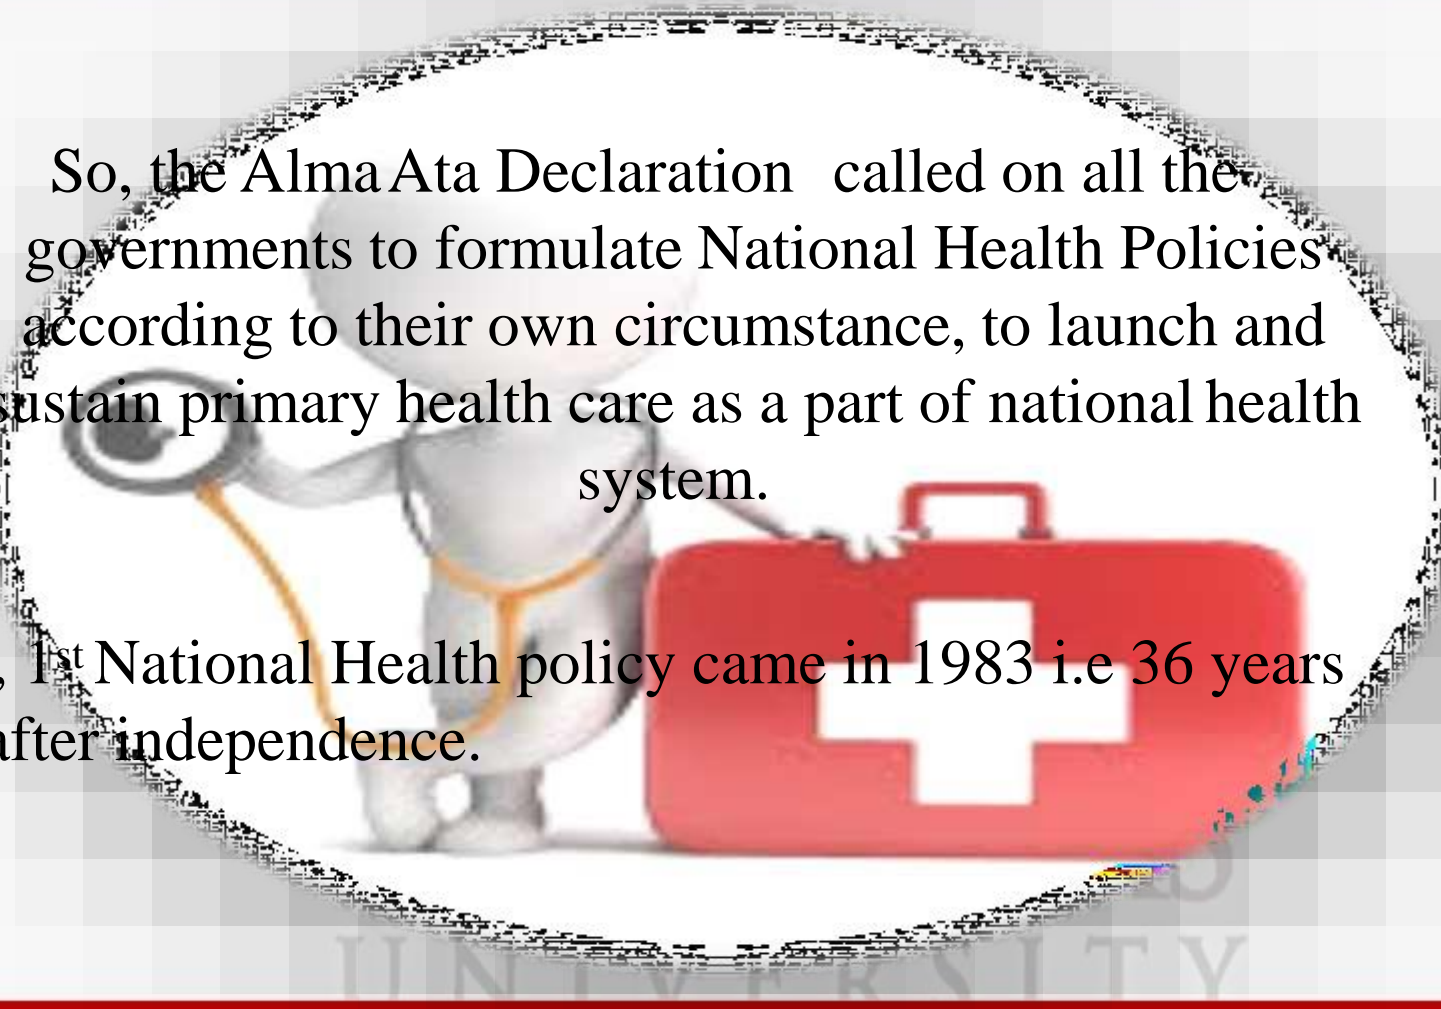

Guidelines of the policy

GALGOTIAS
UNIVERSITY

INTRODUCTION

Health Policy of a nation is its strategy for controlling and optimizing the social uses of its health knowledge and health resource.

The joint WHO – UNICEF international conference in 1978 at Alma Ata (USSR) declared that: *“The existing gross inequalities in the status of health of people particularly between developed and developing countries as well as within the country is politically, socially and economically unacceptable.”*

So, the Alma Ata Declaration called on all the governments to formulate National Health Policies according to their own circumstance, to launch and sustain primary health care as a part of national health system.

So, 1st National Health policy came in 1983 i.e 36 years after independence.

First national health policy came in 1983

Increasing role of privitisation

Revised in 2002 (by Ministry of Health and Family Welfare, Govt. of India)

Key strategy: Primary Health Care &

Equitable access to health services

National Health Policy 2017 launched

Aim: To inform, clarify, strengthen and prioritize the role of the Government in shaping health system in all its dimensions.

National Health Policy 2017: Current Rates & Targets

Life expectancy

67.5
years

70 yea..

Total Fertility Rate

2.2

2.1

NOTE: Children born per woman

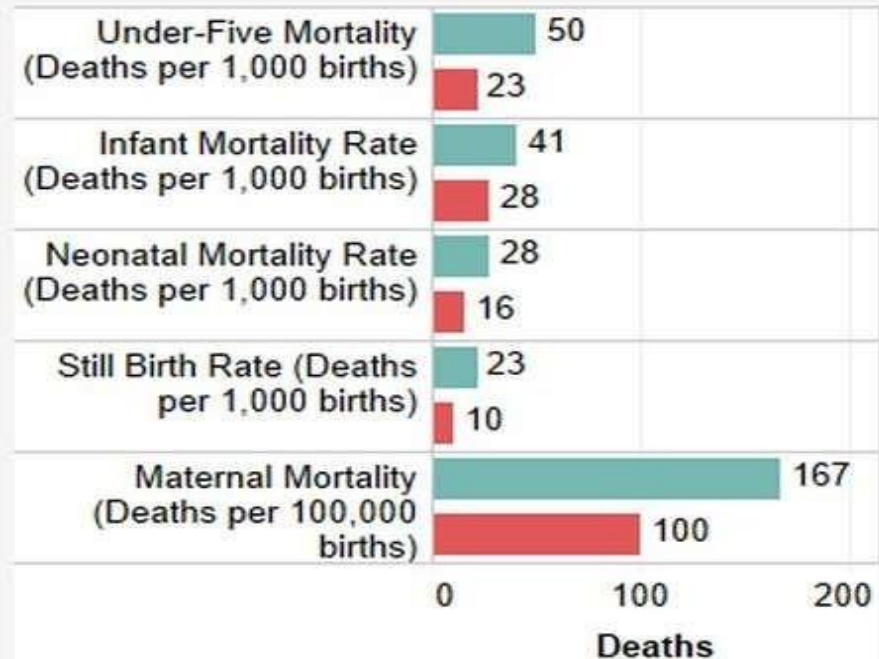

Public Health Expenditure

1.16%

2.5%

NOTE: As Percentage of GDP

Mortality Rate Targets In 2017

■ Current

■ Target

UNIVERSITY

COMPARISION OF TARGETS

NHP 2002

- Reduction of IMR to 30/1000 & MMR to 100/lakh
- Increasing public health expenditure from 0.9% to 2.0% of GDP
- Reduce mortality of TB by 50%
- Eradicate leprosy by 2005
- Eradicate kala azar by 2010
- Eradicate lymphatic filariasis by 2015
- 55% of the total public health expenditure in primary health care

NHP 2017

- Reduction of IMR to 28/1000 & MMR to 100/ lakh
- Increasing public health expenditure from 1.16% to 2.5% of GDP
- Achieve and maintain a cure rate of >85%
- Eradicate leprosy by 2018
- Eradicate kala azar in 2017
- Eradicate lymphatic filariasis in 2017
- >66% of expenditure in primary health care

POLICY IDEAS:

There should be co ordinated action on 7 priority area for improving environment for health (*Swasth Nagrik Abhiyan*)

- The *Swachh Bharat Abhiyan*
- Balanced healthy diet and regular exercises
- Adressing tobacco, alcohol and substance abuse
- *Yatri suraksha*- preventing deaths due to rail and road traffic accidents
- *Nirbhaya Nari*- action against gender violence
- Reduced stress and improved safety in work place
- Reducing indoor and outdoor air pollution.

School of nursing

Course Code : BSCN 4002

Course Name : COMMUNIT HEALTH NURSING

The policy proposes 7 key policy shifts in organising health care services:

❑ Primary care:

Selective care

Assured comprehensive care

❑ Secondary and Tertiary care:

Input Oriented

Output Driven

❑ Public Hospital:

User fees & Cost recovery

Assured free drugs, diagnostics & emergency services

❑ Integration of National Health Programmes with health systems for programme effectiveness.

School of nursing

Course Code : BSCN 4002

Course Name : COMMUNIT HEALTH NURSING

- ❑ Infrastructure and human resource development:

- ❑ AYUSH system:

- ❑ Urban Health: To organise Primary Health Care deliver and referral support for urban poor.

GALGOTIAS
UNIVERSITY

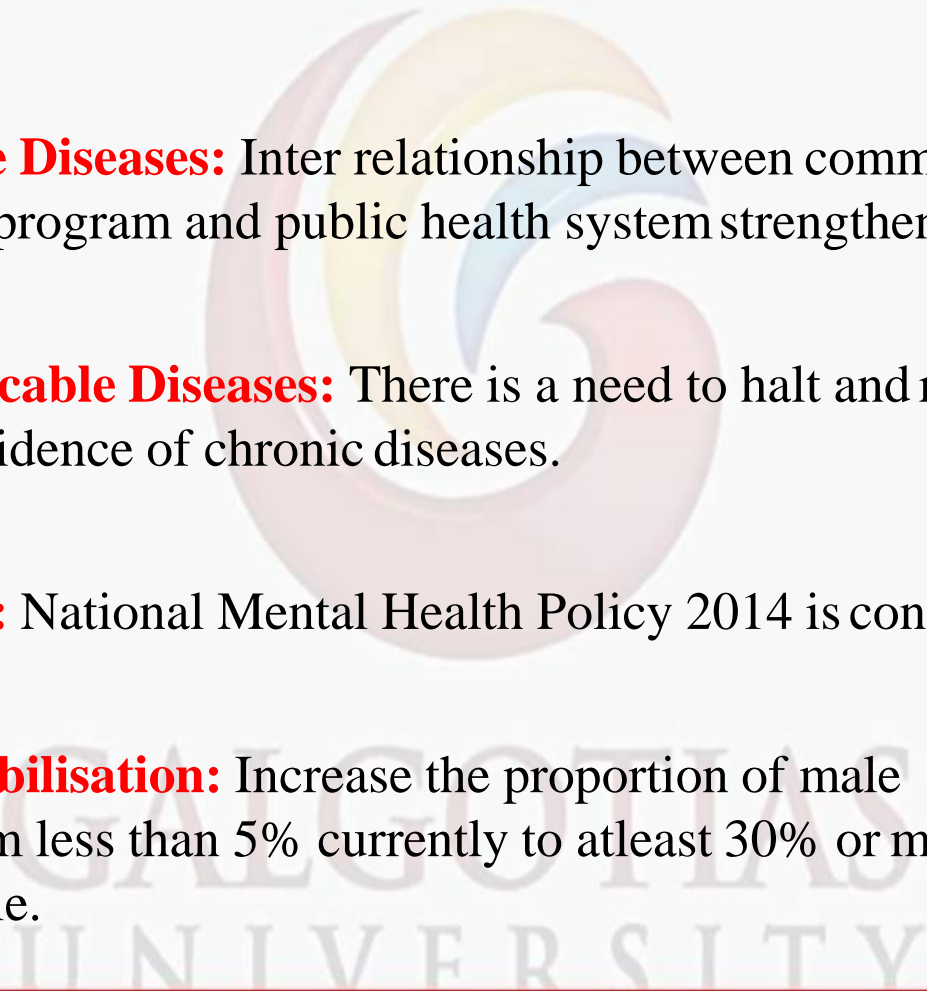

NATIONAL HEALTH PROGRAMMES:

- **RMNCH+A Services** : Developmental action of all sectors to support Maternal and Child survival.
- **Child & Adolescent Health**: Aiming at pre-emptive care to achieve optimum level of child and adolescent health.
- **Intervention to address Malnutrition**: IFA, Calcium supplements, iodized salt, zinc, Vitamin A etc.
- **Universal Immunisation**: Ensure coverage, quality and safety of vaccines also introduction of new vaccines.

GALGOTIAS
UNIVERSITY

CONT...

- **Communicable Diseases:** Inter relationship between communicable disease control program and public health system strengthening.
- **Non Communicable Diseases:** There is a need to halt and reverse the growing incidence of chronic diseases.
- **Mental Health:** National Mental Health Policy 2014 is considered.
- **Population Stabilisation:** Increase the proportion of male sterilisation from less than 5% currently to atleast 30% or more higher if possible.

TO ADDRESS GENDER BASED VIOLENCE:

UNIVERSITY

EMERGENCY CARE AND DISASTER PREPAREDNESS:

- Group of community members should be well trained as first responder for accidents and disaster.
- Development of mass casualty management protocols for CHCs and emergency management protocol at all levels.
- Creation of a unified emergency system, linked to a universal access number and with a network of emergency care that has an assured provision of life support ambulances, trauma management centres-
 - a) 1/30 lakh population in urban area
 - b) 1/10 lakh population in rural area

School of nursing

Course Code : BSCN 4002

Course Name : COMMUNIT HEALTH NURSING

Name of the Faculty: PROF. Dr.ASHIA QURESHI

BSc nursing

STRATEGIC PURCHASING:

- The critical gaps in public health service can be filled by Strategic Purchasing.
 - Insurance (Arogyasri and RSBY) Through Trusts
- Aim: To improve health outcome and reduce out of pocket expenditure.
- Enhancing accessibility in private sector: Charitable hospital and not for profit hospitals should volunteer for accepting referral from public facilities. Private hospitals may provide for subsidized beds for poor and downtrodden patients.
- Collaboration with private sectors for
 - Immunisation Organ
 - Transplants Disease
 - surveillance

GALGOTIAS UNIVERSITY

REGULATORY FRAMEWORK:

- There is a regulatory role of Ministry of Health and Family Welfare on:
 - Regulation of clinical establishments
 - Professional and Technical Education- Strengthening of 6 professional councils – Medical ,Ayurveda, Unani & Siddha Homeopathy ,Nursing Dental , Pharmacy
 - Food Safety
 - Medical Technologies
 - Clinical Trials
 - Research and other health related laws

GALGOTIAS
UNIVERSITY

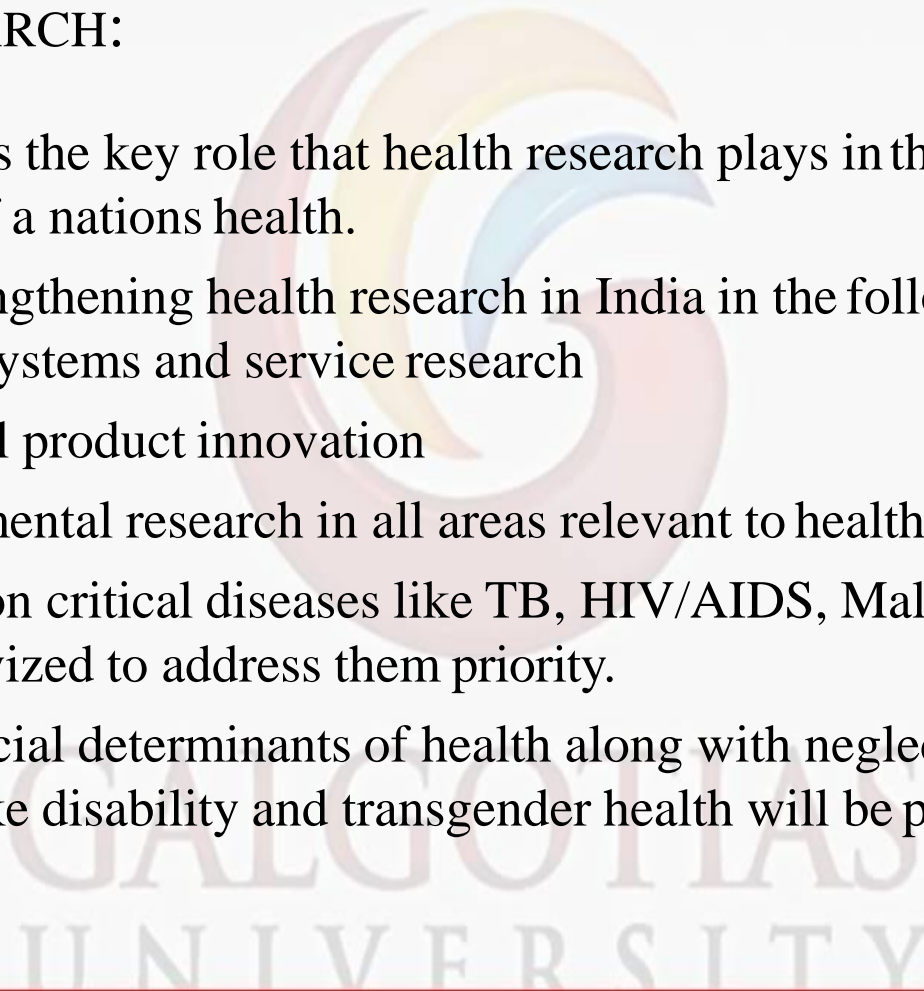

DIGITAL HEALTH TECHNOLOGY:

- Recognising the integral role of technology in healthcare delivery, National Digital Health Authority (NDHA) will be set up to regulate, develop, and deploy digital health across the continuum of care.
- The main aim is to improve efficiency, transparency and citizen experience so that there is a delivery of better health outcomes in terms of access, quality, affordability, lowering of disease burden and efficient monitoring of health entitlements to the citizens.
- The policy will promote utilization of National Knowledge Network for Tele-education, Tele-CME, Tele-consultation etc.

GALGOTIAS
UNIVERSITY

HEALTH RESEARCH:

- NHP recognizes the key role that health research plays in the development of a nations health.
- It supports strengthening health research in India in the following fronts: Health systems and service research
 - Medical product innovation
 - Fundamental research in all areas relevant to health
- Drug research on critical diseases like TB, HIV/AIDS, Malaria etc may be incentivized to address them priority.
- Research on social determinants of health along with neglected health issues like disability and transgender health will be promoted.
